Sixty-ninth session
Item 140 of the provisional agenda*
Administrative and budgetary coordination of the United Nations with the specialized agencies and the International Atomic Energy Agency

Budgetary and financial situation of the organizations of the United Nations system

Note by the Secretary-General

Summary

The present note by the Secretary-General transmits to the General Assembly the statistical report of the United Nations System Chief Executives Board for Coordination on the budgetary and financial situation of the organizations of the United Nations system. In its resolution 63/311 on system-wide coherence, the Assembly requested the Secretary-General to create a central repository of information on operational activities for development, including disaggregated statistics on all funding sources and expenditures, building on the comprehensive statistical analysis of the financing of operational activities for development, and to ensure appropriate and user-friendly online access and regular updating of the information contained therein. In its decision 67/553 B on administrative and budgetary coordination, the Assembly requested the Secretary-General, in his capacity as Chair of the United Nations System Chief Executives Board for Coordination, to coordinate the annual compilation of analysis relating to the financial situation of organizations participating in the common system, including a focus on the budgetary implications of adjustments to all elements of staff costs, for both the most recently completed calendar year and on the basis of projections for the subsequent calendar year, and to submit the related report to the General Assembly at its sixty-ninth session.

The secretariat of the United Nations System Chief Executives Board for Coordination (CEB) has worked continuously to enhance the structure and content of the present report. In particular, each new release of the survey has included more comprehensive data on revenue and expenses relating to extrabudgetary resources from Governments and from non-State donors.

The report follows the same structure as the previous report (A/67/215). It contains a transparent presentation of revenue, expenses and approved budgets, in line with the International Public Sector Accounting Standards, as well as a table on total expenses for 2012-2013 by major programme category. These categories allow CEB to collect the financial data used by the Department of Economic and Social Affairs in its report on operational activities for development, thereby reducing the reporting burden on organizations.

The present report and the corresponding analysis of the figures presented, including a snapshot on the distribution of extrabudgetary resources by country, organization and donor type, are also available on the website of the CEB secretariat (http://www.unsceb.org) and represent the response of the CEB secretariat to resolution 63/311 and decision 67/553 B.

Statistical report of the United Nations System Chief Executives Board for Coordination on the budgetary and financial situation of the organizations of the United Nations system

I. Introduction

1. The present report is the thirteenth of its kind to be presented by the United Nations System Chief Executives Board for Coordination (CEB).

II. Improving transparency and comparability

A. Revenue reporting

2. The organizations of the United Nations system have a wide range of funding models and terminologies. The assessed organizations are funded through a mandatory scale of payments approved by the appropriate governing body. Additional contributions to the assessed organizations are deemed to be voluntary, although they are usually earmarked. However, for the non-assessed (or voluntary) organizations, all funding is voluntary.

3. The report presents the total revenues of United Nations organizations by type of funding. The four common types of funding are:

- Assessed contributions
- Voluntary contributions, not specified
- Voluntary contributions, specified
- Revenue from other activities

The figures in the report are also found in the financial statements of individual organizations and have been converted, as needed, into United States dollars for comparability.

B. Expense reporting

4. In results-based models, all funding received, regardless of its accounting definition, is for the work of the organization. Total expenses are presented against five common programme themes:

- Development assistance
- Humanitarian assistance
- Peacekeeping (Department of Peacekeeping Operations)
- Technical cooperation
- Normative, treaty-related and knowledge-creation activities

C. Budget reporting

5. For many organizations, the concept of the regular budget, funded either by assessments or voluntary funds, remains valid. However, in this model, some organizations report only the administrative expenses in their regular budget, while others report total expenses (see footnotes to table 1). The governing bodies of an increasing number of organizations are now approving a total funding envelope, based on a strategic plan which may include all funding sources. Against these varying definitions, budget figures have been presented in the traditional format with the appropriate footnotes.

D. Requirements of the International Public Sector Accounting Standards

6. Most United Nations organizations implemented the International Public Sector Accounting Standards for the 2012-2013 reporting period. One of the requirements of the Standards is the harmonization of terminology for reporting financial data. Resource inflows are reported as "revenues" and outflows, formerly known as "expenditures", are now called "expenses". While the terminology may have changed, the underlying activities (receipt or disbursement of funds) have not fundamentally changed (see the glossary of terms below).

III. Financial statistics of the United Nations system

7. The tables in the report are grouped under the following five subject headings:

(a) Approved budgets (table 1);

(b) Revenues (tables 2-2D);

(c) Expenses (tables 3 and 3A);

(d) Assessments (tables 4-7);

(e) Working capital funds (table 8).

A. Approved budgets (2008-2013)

Table 1. Approved budgets (2008-2013). Following previous practice, table 1 shows the regular budgets of organizations for 2008-2013. In this context, regular budgets are traditionally equated with regular resources plus any approved expenditures from extrabudgetary sources, if approved by the governing body. As noted, some organizations report total approved expenditures as their approved budget.

B. Revenues

Table 2. Total revenue by organization (2012-2013). This table reflects the four major categories of revenue received by United Nations organizations, namely:

- Assessed contributions

- Voluntary contributions, not specified
- Voluntary contributions, specified
- Revenue from other activities

Table 2A. Voluntary contributions, specified, received from Member States (2012-2013): summary by organization. Table 2A previously covered extrabudgetary resources. Voluntary contributions, specified, are equivalent to this funding type and, for the purposes of the present report, are considered to be the same. Under the International Public Sector Accounting Standards, the concept of voluntary, specified, contributions is accepted and understood, resulting in more consistent and comparable data.

Table 2B. Voluntary contributions, specified, received from certain non-Member State donors (2012-2013). This table covers the total revenues received by United Nations system organizations from defined categories of non-State donors. Data is broken down into four categories:

- Revenue from the European Commission and its agencies
- Revenue from organizations of the United Nations system
- Revenue from international monetary institutions such as the World Bank and regional development banks
- Revenue from foundations, corporations, national committees and other civil society organizations

Table 2C. Voluntary contributions, specified (2008-2013). This comparison table shows the total extrabudgetary contributions for 2008-2009 and voluntary contributions, specified, by organization, for 2010-2013.

Table 2D. Donations in kind (2008-2013). This table covers total donations in kind, by organization. While some have substantial amounts of this type of contribution, many others have none.

C. Expenses

Table 3. Total expenses by organization (2012-2013). This table shows expenses for 2012-2013 by major programme category. The use of such categories allows CEB to also collect financial data for use by the Department of Economic and Social Affairs in its report on operational activities for development, thus reducing the reporting burden on organizations. The categories, which are also intended to increase comparability and transparency, include:

- Development assistance
- Humanitarian assistance
- Peacekeeping (Department of Peacekeeping Operations)
- Technical cooperation
- Normative, treaty-related and knowledge-creation activities

Table 3A. Total expenditure by organization (2008-2013). This comparison table shows total expenses, from all funding sources, for each organization for the period 2008-2013.

D. Assessments

Table 4. Assessed contributions by organization (2008-2013). Table 4 shows the total assessments payable by members of organizations under approved regular budgets. Assessed contributions relating to United Nations peacekeeping operations are not included.

Table 5. Percentage assessments (2012-2013). Table 5 shows, for each of the organizations that collect assessed contributions against an approved scale, the percentage amounts of the assessed contributions payable for 2012 and 2013.

Table 6. Assessments voted and received (2012-2013). Table 6 shows, for each of the members of the organizations collecting an assessed contribution, the assessments payable and the amounts collected in relation to current assessments for 2012 and 2013 and arrears collected during the biennium 2012-2013.

Table 7. Collection of assessed contributions (2012-2013). Table 7 shows the percentage of the current year's assessed contributions that were collected at 30 June and at 31 December (fiscal year-end) for 2012 and 2013. The table also shows, by organization, the total amount of all assessed contributions that remained outstanding at the end of each fiscal year.

E. Working capital funds

Table 8. Working capital funds. Many, but not all, organizations have a governing body-mandated amount of cash reserves to be held in case of funding fluctuations resulting from, inter alia, foreign exchange impacts and funding changes. These can take the form of a liquidity policy, a working capital fund or other mechanism. Where these exist, organizations have reported their value for 2012 and 2013. To improve comparability, the amounts are presented as a percentage of available resources, which are defined as the sum of all revenue types for which the use is not specified.

F. Staff costs

Tables 9 and 9A. In its decision 67/553 B, the General Assembly requested the Secretary-General to include in the annual compilation of analysis relating to the financial situation of organizations participating in the common system, inter alia, a focus on the budgetary implications of adjustments to all elements of staff costs, for both the most recently completed calendar year and on the basis of projections for the subsequent calendar year, and to submit the related report to the Assembly at its sixty-ninth session. Tables 9 and 9A reflect the total 2013 staff costs and a projection of the total 2014 staff costs, with such totals including all elements of staff costs, as pertinent to "salaries and cost of living adjustments"; to "allowances and benefits"; and to "pension and insurance".

In its resolution 68/253, the General Assembly also requested the International Civil Service Commission (ICSC) not to increase any of the allowance under its purview until the comprehensive review decided by resolution 67/257 has been submitted to the Assembly for its consideration. Through the implementation of the resolution, changes in staff cost between 2013 and 2014 will therefore not be driven by changes in the amounts of entitlements but be only related to changes in staffing levels or patterns, and to fluctuations in exchange rate or cost of living adjustments.

Glossary

A. Revenue categories

Assessed contributions

This category reflects contributions received as an assessment, a contributory unit or other payment scheme mandated in a Convention or other basic instrument of an organization.

Voluntary contributions, not specified

This category reflects contributions received by the organization in support of its mandate or programme for which no specific use is required by the donor. No individual reports are made on the use of such contributions.

Voluntary contributions, specified

This category reflects all revenues received by an organization for which the nature and the use of the funds are specified. Generally, each contribution will have an individual reporting requirement.

Revenue from other activities

This category reflects all other revenue recorded by the organization that is not considered a contribution under the organization's accounting policies.

B. Expense categories

Development assistance

This reflects activities of the United Nations funds, programmes and agencies that are specifically aimed at promoting sustainable development in developing countries. Development assistance differs from humanitarian assistance in that the focus is on long-term impacts.

Humanitarian assistance

This reflects the assistance provided by the United Nations system for humanitarian purposes, typically in response to natural or man-made disasters and with a short-term focus.

Technical cooperation

This reflects activities undertaken by United Nations system organizations that cannot be directly linked to a national development plan.

Peacekeeping operations

This reflects the activities of the Department of Peacekeeping Operations and any other expenses incurred in support of those activities.

Normative, treaty-related and knowledge-creation activities

This category reflects a wide range of activities that do not fit into the descriptions above. United Nations organizations may establish standards (namely, normative conduct) that may or may not be mandatory or binding on Governments or Member States. They may also undertake programmes of work as a result of international agreements and treaties. Lastly, most organizations undertake a wide range of activities such as establishing policies and performing research with the goal of enhancing or creating "knowledge".

C. Mapping former reporting categories and methodologies

Budgetary or core revenues/expenditures

Traditionally, the terms "budgetary" and/or "core" were used interchangeably to reflect funds received by an organization to undertake its programme of work. This revenue included assessed contributions, voluntary contributions, not specified, or other earned or miscellaneous income. While the revenues received were in support of the core activities or budget, the total amounts actually received (with the exception of assessments) normally did not correspond to the approved budget.

In general, core revenues equated to assessed contributions plus voluntary contributions, not specified, and other revenues.

Extrabudgetary or non-core revenues/expenditures

These two terms were used interchangeably to reflect funds for which the use was specified by the donor. Because they were traditionally considered to be outside the budget, especially for assessed organizations, these funds were denoted as extrabudgetary. In practice, there are many types of revenue which are outside the budget but for which the use is not actually specified.

In general, revenues previously reported as extrabudgetary or earmarked contributions are the same as the new category of voluntary contributions, specified.

Calculation of United States dollar amounts

For most United Nations organizations, the United States dollar is the currency of account. For organizations that report in a currency other than the United States dollar in their financial statements, their reported amounts were converted using the year-end United Nations operational rate of exchange. As a result, all foreign exchange conversions used the same methodology for improved comparability and transparency.

The following agencies do not keep all their accounts in United States dollars:

- Euro accounts: IAEA, UNIDO, UNWTO
- Canadian dollar accounts: ICAO
- Pound sterling accounts: IMO
- Swiss franc accounts: ITU, WIPO, ILO, WMO, WTO

(Footnotes on following page)

Notes:

(a) This table shows the amounts of the estimated expenditure actually approved under regular budgets plus any approved supplementary estimates.

(b) The budget amounts of the following organizations represent total approved expenditures for 2010 to 2013: PAHO, UN-Habitat, UNAIDS, UNRWA, WHO, WMO and WTO.

(c) As at 2010, UNHCR is implementing a needs-based budget.

(d) IFAD: IFAD's budget represents the operating costs of the organization and does not include any disbursements for financing.

(e) IMO: The figures used in table 1 are regular budget figures for assessment purposes only and do not include other programme funds.

(f) UNDP: "Regular budgets" refers to untied voluntary contributions to UNDP and exclude trust funds, cost-sharing contributions or any other extrabudgetary contributions.

(g) UNEP: Up to 2011, the reported budget refers to the "Regular budget" which is the budget allocation to the UNEP Environment Fund approved by its Governing Council. Contributions to the Environment Fund are voluntary.

(h) UNFPA: "Regular budgets" refers to untied voluntary contributions to UNFPA and excludes trust funds, cost-sharing contributions or any other extrabudgetary contributions.

(i) UN-Habitat: From 2008-2009, "regular budget" refers only to the budget allocation received by UN-Habitat from the United Nations Secretariat.

(j) UNICEF: For the period 2008-2011 the "Approved budgets" refers to the "Biennial Support Budget" funded from regular resources and cost recovery. For 2012-2013 the "Approved budgets" refers to the Institutional Budget funded from regular resources and cost recovery.

(k) UNIDO: Net of reimbursable expenditure. UNIDO's figures reflect the regular budget as approved by its governing bodies. Approved budgets for extrabudgetary sources and estimated programme support cost do not constitute a part of the regular budget.

(l) UNODC: As of 2012, UNODC figures include regular budget.

(m) WFP: WFP has not reported a budget.

(n) UNOPS: The approved budget represents UNOPS' management budget only and does not include funds and contributions relating to projects that it implements.

Notes:

(a) Development assistance: Activities specifically aimed at promoting sustainable development in developing countries. It differs from humanitarian assistance in that the focus is on long-term impacts;

(b) Humanitarian assistance: Assistance provided for humanitarian purposes, typically in response to natural or man-made disasters and with a short-term focus;

(c) Peacekeeping operations: Activities of the Department of Peacekeeping Operations;

(d) Technical cooperation: Activities that cannot be directly linked to a national development plan;

(e) Normative, treaty-related and knowledge-creation activities: Activities such as establishing standards (namely, normative conduct), activities required by international agreements and treaties, and a wide range of activities such as establishing policies and performing research in order to enhance or create "knowledge".
